

## YOUR FIRST 7 DAYS

# Share the molecule.

## *Change a life. Including yours.*

Emily started with one post about her son. 7.1 million views later, she'd built a \$880,000 business — without selling anything. She just shared what worked.

This is your map for the first week. Seven days, seven moves. By Sunday, your link is live, your story is out, and your first commissions are tracking.

## DAY 1 · MONDAY

## Claim Your Link

*Ten minutes. Free. The whole engine starts here.*

### 1 Register at [treocare.com](https://treocare.com)

Free, no fee, no inventory. Approval lands in your inbox within 24 hours. Your unique tracking link comes with it.

### 2 Set up your bio link

Linktree, Beacons, or your platform's native link tool. Add TreoCare as the top item. Label it something real — “the molecule that changed my energy” — not “affiliate link.”

### 3 Order [acemannan](https://treocare.com/acemannan) if you haven't already

You can't share what you haven't felt. Most creators feel a shift in 2–4 weeks. Start the clock today.

## DAY 2 · TUESDAY

## Find Your Story

*The hook is always personal. Always.*

Before you create anything, sit with one question:

***“What about my own health — or someone I love — made me look at [acemannan](https://treocare.com/acemannan) twice?”***

Emily's son had red patches. One month on [acemannan](https://treocare.com/acemannan), they were gone. That's her story. What's yours? The 3pm energy crash? The gut stuff nobody talks about? Recovery after illness? A family member you couldn't help?

Write 3 sentences. That's your origin story. It will live in every post you make.

### THE GOLDEN RULE

Never sell the product. **Share the story.** The most viral wellness content always starts with a personal health challenge and ends with a real result.

#### DAY 3 · WEDNESDAY

## Drop Your First Post

*Done beats perfect. Always.*

Open with a body hook. Tell your story. Add the science in plain English. Close with the mission.

### THE FORMULA

**Line 1:** A bold hook about the body. *“70% of your immune system lives in your gut.”*

**Lines 2–4:** Your personal story. Real, unfiltered, specific.

**Line 5:** What you noticed. The shift.

**Line 6:** The mission — *“every purchase nourishes a child.”*

**Line 7:** Link in bio.

#### DAY 4 · THURSDAY

## Educate the Curious

*People who saved Day 3's post want to know more. Give it to them.*

Post #2 is the explainer. Acemannan in 60 seconds — what it actually is and why it works:

### SIMPLE EXPLANATIONS

**Immune:** *It wakes up your immune system's first responders and tells them to get to work.*

**Gut:** *It feeds the good bacteria and repairs the lining — so your body actually absorbs nutrients again.*

**Energy:** *Clean energy. No caffeine, no crash. Just your cells finally getting what they need.*

**The science line:** *One foundational molecule. 40+ years of research. 200+ peer-reviewed studies.*

#### DAY 5 · FRIDAY

## Talk About the Mission

*This is the post that makes people share you.*

Buy 1, Nourish 1. Every TreoCare purchase nourishes a child in an orphanage somewhere in the world. 250 million servings delivered. 90 countries. Zero asterisks.

Talk about *why* the mission moved you. People don't share products. They share things that make them feel something. The mission post is that thing.

#### DAY 6 · SATURDAY

## Reply to Everyone

*This is where most creators win or lose.*

Every comment. Every DM. Every save. The algorithm is watching, and so is your audience. A 30-second voice reply is worth ten generic likes.

When someone asks “will this help my [thing]?” — never give medical advice. Say what you noticed in yourself, then send them the link. Let the product page do the closing.

#### DAY 7 · SUNDAY

## Look at the Numbers

*Your first week's data tells you everything.*

Open your affiliate dashboard. Look at three things:

- 1. Link clicks.** This is the real signal in week one. Even one click means your hook is working.
- 2. Saves and shares on your posts.** More important than likes. These are the people who'll click next week.
- 3. Which post drove the most attention.** That's your formula. Repeat it.

First sales usually land between day 5 and day 30. The compounding kicks in around month 3 — when month one's customers start re-ordering and your Stream 2 percentage starts climbing.

**WHAT HAPPENS NEXT****Week 1 is just the spark.**

By month 3, creators who post consistently see their first Flexship commissions roll in — every month, automatically.

By month 6, the top creators are hitting the 35% tier on every reorder.

And the ones who go viral? They look like Emily.

**Your first week is the only one that matters today. Start it.**
